

WEEK 3: JULY 18-22

ST. TIM'S SUMMER CAMP

OUR END-OF-THE-WEEK NEWSLETTER!

ADVENTURE WEEK

Dear Parents and Campers,

Week three has zoomed by in a blink of an eye. As a camp founded on the basis of love, we are always so delighted to witness the campers' pure joy and excitement throughout the week. Adventure week was arguably the most action-packed and heat stricken stretch of the summer camp so far, but it was undeniably a precious time of deepening friendships and spreading contagious laughter and love to one another. We can't wait to see new and familiar faces as we immerse ourselves in Korean culture in conclusion of St. Tim's Summer Camp with Arirang Week next week!

If you haven't yet registered your kids for the last week of camp, you can still do so at www.timothypc.com/camp

YOUTH CAMP

Youth camp was granted a well-deserved week of game-packed mornings and lively afternoon field trips for Adventure Week.

Despite a lack of vigor and enthusiasm amongst the campers the first day back from music week, the following days were miraculously brightened with full participation and one of a kind field trips (shout out to Josh and Grace for hosting a fantastic pool party!).

Following through with the theme of identity this week, the youth mastered the praise song, *Who You Say I Am*, while collectively developing a profound understanding of themselves through God.

St. Tim's is so blessed to have such talented, caring and brilliant youth in their community - the future is surely bright!

KINDER & KIDS CAMP

Adventure week was indeed a week full of adventure! We spent a lot of time sharing fellowship outdoors and exploring new places as a change of pace from our previous weeks.

From the very beginning, we started off our Monday with an exciting field trip to Mighty Jungle where our campers ran up and around an indoor playground. The perfect end to this excursion for many of our campers was a nap on the drive back!

We had many outdoor activities planned for this week like our refreshing water fight and a visit to the pool. It seems campers can never get enough of those water balloons!

For this week's field trip, we went all the way down to Centre Island where campers enjoyed the many rides at Centreville Amusement Park! The wind on the ferry was perfect against the scorching heat, as well as the ice cream we finished our trip with.

To end our Adventure Week off with a bang, Nolan and Jordan's family had graciously offered their backyard for a full-day pool party! We spent the beautiful day swimming, diving, eating and playing in the sun. Truly a perfect ending to our week!
